Hobbes maintained that right as

wrong were only relative terms, and there is much in every day life to prove

it. Nothing perhaps gives more con-

clusive evidence to that effect then the Queen's spech announcing the Ballot as

a government measure. Notwithstand-ing "the other English nation in Amer-ica," the writed States, has considered

the Ballot-box as one of the stannchest bulwerks of a citizen's freedom,—not—

ithetanding it has worked so well that

o one can there be found bold enough e recommend its abolition, yet, in Eng-and, up to the fast session of Parlia-ment, the Ballet, has been regarded by

tion. In short, what was good in the States was had in England; what was right in the statutes of the Great Repub-

lic was wrong in our Mother Country.

The in England thing was really purely a matter colored brightly or darkly, according to the fancy or political bias of the individual was held that the Ballot was

right or sunning Wo one knows how

many have been denounced as dangerous or seditions ditisens in Great Britain,

who advocated the Ballot; nor how

many have been imprisoned or transported for being too demonstrative in arging the adoption of that and other kindred

principles. In fact, it was only a year or so sgo when Bright was stigmatized

as a dangerous agitator,—a republican

an enemy to Queen, Lords, and landlords

Ministry and to-day, Bright, as

the exponent of the nation, places the

Ballot as a Government measure in the

mouth of the Queen in opening Parlia-

ment. Thus the progress of opinion

makes wrong to be right, and right to be

wrong, and both wrong and right to be

would arge that it be done at once ;

and get through with organic political

changes. For if it be deferred this session, it will come up during the next

sesion, and under Responsible Govern-

ment will be carried without a doubt. No one the has witnessed the election of

a Chief Engineer of our Fire Depart-

ment can doubt the superiority of the Ballot to see voting. It occurs ab-

aually; yet no complaint is ever made against the Ballot. But there has never

been a single election for the Legislature

is which open voting has been used, that

has not been productive of a greater or

besser degree of dissatisfaction,—and a

ore or less of the electors. By all
